Dear Samantha:

InfoSource Learning/SimpleK12 has been in business since 1983 as a pioneer of digital learning. Our mission is to help educators inspire and engage their students, perfect their craft, and share their experiences to help others do the same. We provide online resources for professional development in a collaborative platform, the SimpleK12 Teacher Learning Community.

Solution Overview

The SimpleK12 Teacher Learning Community is a web-based training portal that gives teachers a collaborative learning environment and self-paced, needs based resource, ONE place they can go to get EVERYTHING they need for 21st Century Learning, including several hundred hours of interactive training and testing, informative webinars by subject matter experts from around the globe. The system also provides them with support from peers, new tools to engage students in a collaborative platform. Click here to view our catalog.
